CITY OF KEWANEE

SUBJECT	ISSUED BY	EFFECTIVE DATE	REVISION DATE
PROCUREMENT POLICY	City Council	01/25/2016	

SECTION 1. GENERAL PROVISIONS

Purpose.

The purpose of this Administrative Policy is to define procurement procedures for each city department to follow based on the type of good or service being acquired and to set forth the process for disposing of city assets. The Administrative Policy shall be effective from and after the date shown above. Any prior Administrative Policies adopted pursuant to this are hereby repealed.

Fundamental Principles. Generally, a good or service should be obtained at the lowest cost, consistent with the quality and service required to maintain efficient operations of City Departments. The quantity of goods purchased is determined through an examination of factors such as the number of units to be used, the period of use, space available, acquisition price, volume discounts, shipping time, obsolescence, and present and expected future availability of an item.

Acquisition of Goods and Services. The acquisition of goods and services by or on behalf of the City of Kewanee, its agencies, departments, officials and authorized agents, should be made in a manner and method which provides for the prudent expenditure of City funds; provides for maximum protection of the taxpayer; prevents waste, conflict, and impropriety; provides for equal access and opportunity in an open and competitive environment to all suppliers, with regard to factors related to quality, cost and availability of the goods and services; and which comply with all applicable federal, state and local laws, rules and regulations.

Self-imposed Constraints. Even though the City Council approves a level of expenditures for any given department, that approval, in and of itself, is neither a permit nor a directive to expend funds unless the need exists at the time of purchase and the good or service to be purchased is within the budget limits.

Familiarity with Policy. All personnel of the City responsible for purchases shall become familiar with and follow the City's policies and procedures as they relate to purchasing. Supervisors shall be cognizant of their respective budget limitations and initiate purchases accordingly. It is the responsibility of the individual departments to anticipate requirements and initiate action to purchase goods and services in advance of the time they are needed.

Application.

This policy applies to all purchases and contracts entered into by the City or contractors performing day-to-day operations on behalf of the City when making purchases with municipal funds. It shall apply to every expenditure of public funds for supplies and materials by a public department for public purchasing irrespective of the source of the funds. If City staff or resources are used in any manner, this policy shall apply. When the purchase involves the

expenditure of federal or state assistance or contract funds, the purchase shall be conducted in accordance with any mandatory applicable federal and/or state laws and regulations. Nothing in this policy shall prevent any public department from complying with the terms and conditions of any grant, gift or bequest that is otherwise consistent with law.

Public Access to Purchasing Information.

Purchasing information shall be a public record to the extent provided by state statute and shall be available to the public as provided in such statute.

The City Manager may waive technical irregularities in the bid requirements in this Purchasing Policy, or in the advertisement of the bids, if the City Manager finds that such waiver does not compromise the integrity of the bidding process.

Late Bids. Bids not submitted by the required deadline are ineligible for consideration and will not be opened.

Bid Openings. All bid openings shall be scheduled with the City Clerk prior to giving public notice of an invitation for bid. Bids shall be opened publicly in the presence of one or more witnesses at the time and place designated in the invitation for bids. Bids shall be evaluated based on the requirements set forth in the invitation for bids, which may include criteria to determine acceptability such as inspection, testing, quality, workmanship, delivery and suitability for a particular purpose. Those criteria that will affect the bid price and be considered in evaluation for award shall be objectively measurable, such as discounts, transportation and delivery costs, and total or life cycle costs. The invitation for bids shall set forth the evaluation criteria to be used. No criteria may be used in bid evaluations that are not set forth in the invitation for bids.

Correction or Withdrawal of Bids; Cancellation of Awards. Correction or withdrawal of inadvertently erroneous bids before or after bid opening, or cancellation of awards or contracts based on such bid mistakes, may be permitted where appropriate. Mistakes discovered before bid opening may be modified or withdrawn by written notice received in the office designated in the invitation for bids prior to the time set for bid opening. After bid opening, the following provisions shall apply:

1. A low bidder alleging a material mistake of fact may be permitted to correct its bid, if the mistake is clearly evident on the face of the bid document and the intended correct bid is similarly evident.
2. A low bidder alleging a material mistake of fact may be permitted to withdraw its bid: (1) if the mistake is clearly evident on the face of the bid but the intended correct bid is not similarly evident, or (2) if the mistake is not clearly evident on the face of the bid but the bidder submits evidence which clearly and convincingly demonstrates that a mistake was made, in which case the bidder must show the nature of the mistake and the bid price actually intended.

No changes in bid prices or other provisions of bids prejudicial to the interests of the City or fair competition shall be permitted. All decisions to permit the correction or withdrawal of bids, or to cancel awards or contracts based on bid mistakes, shall be supported by a written determination made by the City Manager.

Award. The bid shall be awarded with reasonable promptness by written notice to the lowest responsible bidder whose bid meets the requirements and criteria set forth in the invitation for bids, subject to the right of the City to reject all bids. Award contracts of \$25,000 and above that were budgeted shall be forwarded to the City Council for approval and execution of the contract. In the event that a purchase is necessary and is not budgeted, except in an emergency, prior approval of the City Council to bid the purchase should be received before publication and bidding.

SECTION 4. CHANGES IN SCOPE OF WORK.

Through approval of this policy, a change in scope of work is considered a modification or amendment of an existing contract that alters the project from what was originally envisioned. Except as noted below, any modification or amendment of an existing contract's scope of work that increases the total compensation in an amount to exceed the greater of \$25,000 or ten (10)% of the cost of the project must be approved by the City Council prior to work commencing. Changes in scope that do not cause the total contract amount to exceed \$25,000 may be executed by the City Manager.

In certain limited emergency situations, the City Manger shall be given the authority to execute an emergency change of scope. The City Manager shall only execute the emergency change of scope if the work qualifies as an "emergency" and the overall project budget is not exceeded. The emergency change of scope supplemental agreement would be submitted to the City Council for ratification at the next available meeting.

SECTION 5. CHANGE ORDERS.

Through approval of this policy, a change order is considered a change in the scope of services or cost in a contract where the contractor may request a change order. A change order is an amendment to the contract. The contract amendment should contain the changes in scope of services and/or in cost and must go to the City Council for approval. Except as noted below, any change order that increases the total contract amount greater than \$25,000 must be approved by the City Council prior to work commencing. Change orders in an amount less than \$25,000 may be executed by the City Manager and submitted to the City Council for ratification at the next available meeting.

In certain limited emergency situations or due to the stage of construction in progress or to prevent a lengthy delay in a project, the Department Head, with the approval of the City Manager, and with notification to the City Council, can authorize a change order in an amount to exceed \$25,000. After authorizing the change order, the change order is prepared and submitted to the City Council for ratification at the next available meeting. These change orders may involve such issues as additional tasks, deletion of tasks, cost changes and extensions of time.

In the event a series of change orders on a single contract accumulates to an amount in excess of \$25,000, all subsequent change orders, regardless of amount, must go to the City Council for approval prior to work commencing.

Exception. Notwithstanding the above, any change order resulting in a decrease of any amount related to any construction or reconstruction of a project for the City may be approved by the City Manager without further action by the City Council.

SECTION 6. COOPERATIVE BIDDING AND STATE BID AWARDS.

It is sometimes beneficial to group the City's requirements with the like requirements of other cities, counties or agencies. This results in lower costs to all parties while maintaining the integrity of each entity's bidding requirements.

The State of Illinois bids many common requirements and makes the award results available to any governmental agency. State bid awards enable government agencies to purchase goods and services at a reduced price due to quantity discounts and do not require the bidding process by individual agencies. State bids are considered to meet the sealed bid requirements.

The City may contract directly with other governmental entities for the purchase of items. The City may also participate in, sponsor, conduct or administer a cooperative purchasing agreement whereby items are procured in accordance with a contract established by another governmental entity provided that such contract was established in accordance with the laws and regulations applicable to the establishing governmental entity. These cooperative purchasing agreements shall be authorized by the City Council.

Additional City Council approval shall not be required for the purchase of any budgeted items from purchasing agreements established by governmental entities with which the City Council has previously approved participation. City Council approval will be required for the purchase of unbudgeted items in excess of \$25,000 regardless of whether the Council has approved

participation with the governmental entity. Specific unbudgeted items less than \$25,000 may be purchased through an approved cooperative purchasing program provided an alternative funding source within the respective Department's budget is identified in writing to the Finance Director and City Manager.

SECTION 7. TERM AND SUPPLY CONTRACTS.

Term and supply contracts shall be bid following the same procedures established by this policy for other purchases based upon estimated value of contract. The Department Head shall prepare a recommendation of award for City Council approval for all term and supply and annual contracts over \$25,000, based upon the annual value of the contract. In the instance of multiple year contracts, City Council approval is not required for the renewal periods when the requested price increase does not exceed the renewal period increase established in the original contract. All multiple year contracts shall contain a clause which states that the Contractor understands the obligation of the City to pay for goods and/or services under the contract is limited to payment from available revenues and shall constitute a current expense of the City. It shall not in any way be construed to be a debt of the City in violation of any applicable constitutional or statutory limitations or requirements concerning the creation of indebtedness by the City nor shall anything contained in the contract constitute a pledge of the general tax revenues, funds or moneys of the City. All provisions of the contract shall be interpreted so as to give effect to such intent.

SECTION 8. PROFESSIONAL SERVICES.

Contracts for professional services such as engineering, architectural, consulting and other specialized or technical services shall be obtained through the following process:

1. The Department Head shall prepare a scope of services to determine the format to be used, identify any special requirements, outline a timeline for the project, estimate costs, define roles, and identify potential respondents.
2. Based on the scope of services, the Department Head shall prepare a Request for Proposal or Request for Qualifications, as applicable, designed to ascertain the vendor qualifications, and obtain brochures and any other information which may be used by the selection committee during their evaluation of the proposals.
3. A selection committee shall be established by the Department Head or his/her designee to review the proposals and rate each firm according to the evaluation criteria established in the Request for Proposal/Qualifications. At a minimum, an Administration Department representative shall serve on all selection committees as an evaluator. However, in the event the estimated cost of the scope of services in the Request for Proposal/Qualification exceeds \$25,000, the applicable Department Head shall serve on the selection committee for that proposal evaluation.
4. A two-step process will be used whereby the selection committee will first rate each proposal received on criteria established in the Request for Proposals/Qualifications. The composite score of the committee will be used to determine the top rated firms, which may be interviewed. If interviews are conducted, the firms are rated after the interviews and a second composite score recorded.
5. Immediately following each of the two steps in the process, committee members shall individually rate the firms and submit their rating sheets to the Department Head or his/her designee. The Department Head or his/her designee will then begin negotiations with the firm receiving the highest score.

6. The Department Head or his/her designee shall prepare a recommendation of award for City Council approval.

Upon approval of the City Manager, professional services under \$5,000 may be exempt from the Request for Proposal and competitive bidding process.

SECTION 9. CONSTRUCTION CONTRACTS.

Construction contracts shall be bid in accordance with the procedures established for other purchase by this policy according to applicable price range.

Construction contracts, supervised by outside consulting services, shall be bid in coordination with the Department Head. A bid package shall be reviewed and approved by the Department Head. Construction contracts shall be prepared by the Consultant. The Consultant or the Department Head, as determined by the Department Head, shall distribute the bid package to potential bidders. The Consultant or Department Head shall schedule a bid opening with the City Clerk where bids will be opened publicly in the presence of one or more witnesses at the time and place designated in the bid package. The amount of each bid, and such relevant information as the City Clerk deems appropriate, together with the name of each bidder, shall be recorded. The record and each bid shall be open to public inspection. The final award of the bid shall be communicated to the successful bidder by the Department Head or his/her designee.

Contract Administration.

A contract administration system shall be maintained by the Department or Consultant designed to ensure that a contractor is performing in accordance with the solicitation, terms and conditions under which the contract was awarded. Generally, contracts should be no more than three (3) year contracts with no more than two one-year extensions. Contracts with evergreen provisions are generally discouraged.

SECTION 10. SOLE SOURCE PURCHASES.

A contract may be awarded or a purchase made without competition when, after conducting a good faith review of available sources, it is determined there is only one source for the required product.

Circumstances that require a sole source purchase may include, but are not limited to:

1. No competitive product or availability from only one supplier;
2. The purchase of a component or replacement part for which there is no commercially available product, and which can be obtained only from the manufacturer;
3. The purchase of an item where compatibility is the overriding consideration, such as to maintain standardization or compatibility, or to match materials already in use to produce visual harmony;
4. When supplies or services are available at a discount from a single distributor for a limited period of time;
5. When a specialized consultant or technical services is needed for a project with specific circumstances requiring a unique combination of abilities or expertise to perform the services required;
6. The purchase of a used item;

7. The purchase of a product for trial or testing.

Sole source can refer to the supplier, as well as a product or service. Thus the ability to meet a delivery date or to provide on-call repairs can create a sole supplier condition. Justification for a sole source purchase depends on a needed item being available from only a single supplier under the prevailing conditions. If the item may be obtained from more than one source, price competition shall be solicited.

SECTION 11. EMERGENCY PURCHASES

An emergency condition exists when there is a threat to public health, welfare, or safety such as may arise by reason of floods, epidemics, riots, equipment failure, etc. The condition must create an immediate and serious need for supplies, equipment, materials, and/or services that cannot be met through normal procurement methods and the lack of which would threaten the function of the City government or its programs.

Any department may make emergency purchases when an emergency arises, with the approval of the City Manager or designee, however with such competition as may be possible under the circumstances. Purchases shall be limited to only the quantity necessary to meet the emergency, and in no event shall the contract price exceed commercially reasonable prices.

SECTION 12. GENERAL INSTRUCTIONS.

1. Local Business Preferences.

Goods and services purchased by the City shall be purchased from local merchants and businesses, unless:

1. Such goods of like quality and services are not available locally; or
2. The cost of such goods or services plus shipping and handling may be purchased outside the local area at a savings of ten percent (10%) or more; or
3. An emergency exists and such goods or services are not immediately available locally; or
4. State/Federal requirements are such to require the lowest bid.

2. Specifications.

It is the responsibility of the department to write their specification and establish the quality of the product or service required. Specifications shall be written to require competition at the manufacturer's level when possible. Use of a brand name specification shall include the designation "or an approved alternate." A "no substitute" request must be justified by the department as to why no other brand will meet the need.

3. Multiple Purchases.

Making multiple purchases for the purpose of avoiding the bidding process shall not be permitted and shall be considered a violation of this Policy.

4. Unauthorized Purchases.

~~The purchase of an item must be made in accordance with the Purchasing Policy and Procedures.~~ Any purchase of item, which does not comply with these procedures shall be considered an unauthorized purchase. Whenever funds have been expended or payment cannot be avoided on an unauthorized purchase, anyone may report the matter

in writing to the Department Head or the City Manager for action. Said action may include discipline in accordance with the City's disciplinary policies.

5. Minimum Insurance and Bonding Requirements for Contract Awards.

Contract awards shall be made only to contractors that possess the ability to perform successfully under the terms and conditions of a proposed procurement. Contracts awarded shall include the following guarantees, except when an exemption is provided:

1. A performance bond on the part of the contractor for 100% of the contract price for any contract exceeding the sum of \$40,000.
2. All construction contractors and subcontractors are to carry Workman's Compensation Insurance for all employees who work on the premises, as well as:
 - a. Manufacturer's and Contractor's Public Liability Insurance as appropriate for the project (Minimum requirement - \$1,000,000)
 - b. Property Damage Insurance to protect them from claims for property damage. (Minimum requirement - \$1,000,000)
 - c. Any and all additional insurance required by the laws of the State of Illinois.
3. If any subcontracting is let, prime contractors will be required to ensure the subcontractors comply with the provisions of this plan and with all applicable required federal and state regulations.
4. Any insurance requirements required for state and/or federal funds are also incorporated into this document by reference and will be adhered to on such projects.

All proof of insurance and bond documents shall be provided to the City Clerk prior to Contractor beginning work on any City project.

6. City Attorney Review of Agreements.

All rental, lease agreements or contracts for goods and services must be reviewed by the City Attorney and be authorized by the City Manager. A copy of all rental, lease agreements or contract requiring payment must also be forwarded to the Finance Department for processing at least thirty (30) days prior to the due date of the first payment.

7. Municipal Tax Exemption.

The City is tax exempt as a political subdivision under Section 4221(b) of the IRS Code and 35 ILCS 105/3-5 (4), except for personal property used in a business setting. Employees making a purchase are responsible for obtaining the latest tax exempt certificate and for remitting it to the appropriate vendor prior to every purchase.

8. State and Federal Laws.

The City of Kewanee will comply with all state statutes, federal laws, and regulations related to local government purchase.

SECTION 13. BUDGET

Annual Budget Approvals.

The City Council determines expenditure levels through the formulation and approval of the annual budget. In performing this policy-making function, the City Council establishes a set of goals, priorities and performance standards by which the City organization directs its collective effort toward accomplishing. The adoption of the annual budget is the approval of a level of expenditures necessary to accomplish the goals and objectives that have been established for each City program. With the exception of single expenditures of more than \$25,000 or specific Ordinances to the contrary, no further City Council action is required to initiate purchases within that budget.

Budgetary Control.

Budget review by the Finance Department will be at the section level (e.g. personnel, contractual services, materials and supplies, transfers, capital outlay) for each activity in each fund. An expenditure may not be approved if expenditures have exceeded the total approved for the budget of that Division or Department. Exceptions to this limitation may be approved by the City Manager in an amount not to exceed \$5,000. City Council action is required for any single expenditure over \$5,000 which exceeds the total approved budget of that Division or Department.

SECTION 14. LEASE OF REAL PROPERTY.

The City Council may lease real property which is currently underutilized in order to maximize the return on the property to the City until such time as such properties shall be required for public usage, after following an applicable process which results in a fair market value determination which is financially most advantageous to the City.

Nothing herein shall prevent the City Manager or designated representative from negotiating the lease to a Lessee of any real property that is shown to have a unique value to such Lessee due to its configuration, accessibility or size. The City Council shall have final approval of all such negotiations and any transaction.

SECTION 15. DISPOSAL OF CITY ASSETS.

65 ILCS 5/11 authorizes cities to sell, transfer, or otherwise convey real or personal property owned by the city. When an item no longer is needed by a City Department, the respective Department Head should attempt to redistribute the item within City Departments. Should there be no need for the item across City departments, such items may be given to other local governmental agencies, local not-for-profit agencies, or may be sold or traded outside of the City. If sold, departments shall determine an applicable fair market value which is financially most advantageous to the City. Unusable property or parts that have a market value will be sold "as is" through available markets approved by City Management. Usable property which cannot be relocated across City departments will be disposed of in accordance with the following procedures.

1. *Limitations.* Any asset which, at the time of purchase, was paid by City warrant in the amount of \$15,000 or more, must receive approval by the City Manager.

2. *Prohibitions.* Under no circumstances will any employee, or family-member of an employee, have access to or ownership of any asset that is being disposed of in accordance with this policy unless such asset is being offered for sale to the general public and the process for such sale is open to any individual intending to proffer a bid on such asset.
3. *Documents.* All documents will be disposed of in accordance with State policies governing same. Any document which has, or appears to have, historical value will be separated for further examination by officials approved through the Illinois State Historical Society.
4. *Computing Technology.* Departments shall be responsible for disposing of their respective computing technology assets. It is the responsibility of each Department and their employees to see that all data residing on any type of storage device is removed from any computing technology prior to the equipment leaving their possession.
5. *Notification.* Prior to transferring or disposing of City assets, each Department Head will determine whether such asset is part of the City's ongoing fixed asset inventory. If so, a complete description of the asset being transferred or disposed of will be sent to the Finance Department.

SECTION 16. ETHICS.

All City employees authorized to conduct purchasing activities on behalf of the City of Kewanee shall adhere to the highest degree of ethical standards. No employee shall engage in or permit any illegal or improper purchasing practice. Further, any employee having knowledge of any questionable practice shall immediately report this knowledge to their respective Department Head or the City Manager. Engaging in or permitting unethical or illegal conduct constitutes grounds for disciplinary action in accordance with the City's disciplinary policies, as well as criminal or civil action.

SECTION 17. RESPONSIBILITY FOR ENFORCEMENT.

The City Manager will have the responsibility for the enforcement of his administrative policy. Department Heads will be entrusted with the responsibility of enforcing the policy within their departments.
